PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of hands-on experience delivering scalable web applications, CRM platforms, and end-to-end product solutions. Skilled in React.js, Node.js, REST API integration, and cloud-ready architectures, with experience managing full product lifecycles from POC to production. Strong communicator experienced in presenting to stakeholders and at international industry conferences. Seeking a Full Stack Developer role in Riyadh or an MNC environment.

KEY ACHIEVEMENTS

- Contributed to winning a 40,000 SAR Datathon — led technical strategy, pitch preparation, and judge presentation.
- Promoted from Intern to full-time developer within 4 months at KaRama Intelligence Technology, demonstrating rapid growth.
- Successfully published the iWash mobile app on both Google Play Store and Apple App Store, managing compliance end-to-end.
- Represented the company at international healthcare & biotech conferences and hackathons, strengthening brand visibility.
- Independently designed and launched the KaRama IT company website end-to-end (UX, content, and implementation).

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Design, UI/UX Design (Figma)

Backend: Node.js, REST API Development & Integration, Java

Database: MongoDB, MySQL, Database Design & Optimization

Tools & Platforms: Git, GitHub, Figma, Wix, Google Play Console, Apple App Store Connect, CRM Systems (Octopus AI)

Soft Skills: Team Leadership, Project Management, Client Communication, Stakeholder Presentations, Agile/Scrum

PROFESSIONAL EXPERIENCE

Full Stack Developer — KaRama Intelligence Technology, Riyadh, KSA

Mar 2025 – Present

- Lead end-to-end development of the KaRama VS website, contributing to architecture, coordination, and delivery milestones.
- Drive frontend (React.js) and backend (Node.js) development, ensuring scalability, performance, and code quality.
- Develop Proof-of-Concept (POC) applications for clients and investors, translating business requirements into functional prototypes.
- Partner with the sales team on client demos and pre-sales technical discussions, directly influencing deal closures.
- Represent the company at healthcare, biotech, and tech conferences and hackathons, strengthening brand presence.
- Contributed to winning a 40,000 SAR Datathon — prepared technical architecture, crafted the pitch, and presented to judges.
- Participate in stakeholder meetings, delivering product updates, technical progress, and roadmap input.

Software Development Intern — KaRama Intelligence Technology, Riyadh, KSA

Dec 2024 – Mar 2025

- Independently designed and developed the KaRama IT Company website on Wix, managing full UX design, content, and implementation.
- Configured and optimized the Octopus AI CRM platform to streamline internal company operations.
- Served as Project Manager for the iWash Laundry Service app, coordinating timelines with an external development vendor.
- Managed end-to-end publishing of the iWash mobile app on Google Play Store and Apple App Store, including compliance and release.

Software Development Intern — British Institute of Technology

Jun 2023 – Sep 2023

- Built a real-time Client–Server Chat Application in Java with secure communication protocols.
- Developed a Hospital Management System (HMS) covering patient records, appointments, billing, and admin dashboards — subsequently sold to Sofi Multispeciality Hospital, Jewargi.

NOTABLE PROJECTS

iWash Laundry Service Mobile App — Project Manager | KaRama Intelligence Technology

- Managed full lifecycle from requirements gathering to production release on both iOS and Android platforms.
- Coordinated with external development team, ensuring on-time delivery and adherence to App Store/Play Store guidelines.

KaRama VS Website — Full Stack Developer | React.js, Node.js, REST API

- Contributing to development of corporate platform with modern React frontend and Node.js/REST API backend.
- Involved in system architecture, code reviews, task coordination, and stakeholder reporting.

Hospital Management System (HMS) — Developer | Java, MySQL

- Built full-featured HMS with patient records, appointment scheduling, billing, and admin workflow modules — successfully sold to Sofi Multispeciality Hospital, Jewargi, demonstrating real-world commercial viability.

Real-Time Chat Application — Developer | Java, Client-Server Architecture

- Implemented Client–Server chat system in Java with real-time message exchange and encrypted communication.
